

Commodity Credit Corporation, USDA

§ 1467.3

during calendar year 1995 and thereafter.

(b) The Chief, Department, may implement WRP in any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territories of the Pacific Islands.

[60 FR 28514, June 1, 1995. Redesignated and amended at 61 FR 42141, 42143, Aug. 14, 1996]

§ 1467.2 Administration.

(a) The regulations in this part will be administered under the general supervision and direction of the Chief.

(b) The Chief is authorized to modify or waive a provision of this part if the Chief deems the application of that provision to a particular limited situation to be inappropriate and inconsistent with the environmental and cost-efficiency goals of the WRP. This authority cannot be further delegated. The Chief may not modify or waive any provision of this part which is required by applicable law.

(c) As determined by the Chief and the Administrator of the Farm Service Agency, the Department and the Farm Service Agency will seek agreement in establishing policies, priorities, and guidelines related to the implementation of this part.

(d) The State Conservationist will consult with the State Technical Committee on the development of the rates of compensation for an easement, a priority ranking process, and related policy matters.

(e) The Department may delegate at any time easement management, monitoring, and enforcement responsibilities to other Federal or State agencies.

(f) The Department may enter into cooperative agreements with Federal or State agencies, conservation districts, and private conservation organizations to assist the Department with educational efforts, easement management and monitoring, outreach efforts, and program implementation assistance.

(g) The Department shall consult with the U.S. Fish and Wildlife Service in the implementation of the program and in establishing program policies.

The Department may consult with the Forest Service, other Federal or State agencies, conservation districts or other organizations in program administration. No determination by the U.S. Fish and Wildlife Service, the Forest Service, Federal or State agency, conservation district, or other organization shall compel the Department to take any action with the Department determines will not serve the purposes of the program established by this part.

(h) The Chief may allocate funds for such purposes related to: special pilot programs for wetland management and monitoring; acquisition of wetland easements with emergency funding; cooperative agreements with other Federal or State agencies for program implementation; coordination of easement enrollment across State boundaries; coordination of the development of conservation plans; or, for other goals of the WRP found in this part. The Department may designate areas as conservation priority areas where environmental concerns are especially pronounced and to assist landowners in meeting nonpoint source pollution requirements and other conservation needs.

[60 FR 28514, June 1, 1995. Redesignated and amended at 61 FR 42141, Aug. 14, 1996]

§ 1467.3 Definitions.

The following definitions shall be applicable to this part:

Agricultural commodity means any crop planted and produced by annual tilling of the soil or on an annual basis by one trip planters, or alfalfa and other multi-year grasses and legumes in rotation as approved by the Secretary. Land shall be considered planted to an agricultural commodity during a crop year if, as determined by the Department, an action of the Secretary prevented land from being planted to the commodity during the crop year.

Chief means the Chief of the Natural Resources Conservation Service or the person delegated authority to act for the Chief.

Commenced conversion wetland means a wetland or converted wetland for which the Farm Service Agency has determined that the wetland manipulation was contracted for, started, or for

which financial obligation was incurred before December 23, 1985.

Conservation District is a subdivision of a State government organized pursuant to applicable State law to promote and undertake actions for the conservation of soil, water, and other natural resources.

Conservation Reserve Program (CRP) means the program administered by the Commodity Credit Corporation pursuant to 16 U.S.C. 3831-3836.

Contract means the document that specifies the obligations and rights of any person who has been accepted for participation in the program.

Converted wetland means a wetland that has been drained, dredged, filled, leveled, or otherwise manipulated (including the removal of woody vegetation, or any activity that results in impairing or reducing the flow, circulation, or reach of water) for the purpose, or that has the effect, of making the production of an agricultural commodity possible if such production would not have been possible but for such action.

Cost-share payment means the payment made by the Department to achieve the restoration of the wetland functions and values of the easement area in accordance with the WRPO.

Department means the United States Department of Agriculture (USDA) and includes the Commodity Credit Corporation or any USDA agency or instrumentality delegated program responsibility by the Secretary of Agriculture.

Easement means a reserved interest easement which is an interest in land defined and delineated in a deed whereby the landowner conveys all rights, title, and interests in a property to the grantee, but the landowner retains those rights, title, and interests in the property which are specifically reserved to the landowner in the easement deed.

Easement area means the land encumbered by an easement.

Easement payment means the consideration paid to a landowner for an easement conveyed to the United States under the WRP.

Farm Service Agency (FSA) is an agency of the United States Department of Agriculture.

Forest Service is an agency of the United States Department of Agriculture.

Landowner means a person or persons having legal ownership of farmland, including those who may be buying farmland under a purchase agreement. Landowner may include all forms of collective ownership including joint tenants, tenants in common, and life tenants and remaindermen in a farm property.

Lands substantially altered by flooding means areas where flooding has created wetland hydrologic conditions which, with a high degree of certainty, will develop wetland soil and vegetation characteristics over time.

Natural Resources Conservation Service (Department) is an agency of the United States Department of Agriculture, formerly called the Soil Conservation Service.

Permanent easement means an easement that lasts in perpetuity.

Person means an individual, partnership, association, corporation, estate or trust, or other business enterprise or other legal entity and, whenever applicable, a State, a political subdivision of a State, or any agency thereof.

Practice means a restoration measure necessary or desirable to accomplish the desired program objectives.

Riparian areas means areas of land that occur along streams, channels, rivers, and other water bodies. These areas are normally distinctly different from the surrounding lands because of unique soil and vegetation characteristics, may be identified by distinctive vegetative communities which are reflective of soil conditions normally wetter than adjacent soils, and generally provide a corridor for the movement of wildlife.

State Technical Committee means a committee established by the Secretary of the U.S. Department of Agriculture in a State pursuant to 16 U.S.C. 3861. For the purposes of the WRP, the State Conservationist will be the chairperson of the State Technical Committee.

U.S. Fish and Wildlife Service is an agency of the United States Department of the Interior.

Wetland means land that:

(1) Has a predominance of hydric soils;

(2) Is inundated or saturated by surface or groundwater at a frequency and duration sufficient to support a prevalence of hydrophytic vegetation typically adapted for life in saturated soil conditions; and

(3) Does support a prevalence of such vegetation under normal circumstances. For purposes of WRP, wetland shall also refer to adjacent lands that contribute to wetland functions and values.

Wetland functions and values means the hydrological and biological characteristics of wetlands and the socioeconomic value placed upon these characteristics, including:

(1) Habitat for migratory birds and other wildlife, in particular at risk species;

(2) Protection and improvement of water quality;

(3) Attenuation of water flows due to flood;

(4) The recharge of ground water;

(5) Protection and enhancement of open space and aesthetic quality;

(6) Protection of flora and fauna which contributes to the Nation's natural heritage; and

(7) Contribution to educational and scientific scholarship.

Wetland restoration means the rehabilitation of degraded or lost habitat in a manner such that:

(1) The original vegetation community and hydrology are, to the extent practical, re-established; or

(2) A community different from what likely existed prior to degradation of the site is established. The hydrology and native self-sustaining vegetation being established will substantially replace original habitat functions and values but does not involve more than 30 percent of the wetland restoration area.

WRP means the Wetlands Reserve Program.

WRPO means the Wetlands Reserve Plan of Operations.

[60 FR 28514, June 1, 1995; 60 FR 33034, June 26, 1995. Redesignated and amended at 61 FR 42141, Aug. 14, 1996]

§ 1467.4 Program requirements.

(a) *General.* Under the WRP, the Department may purchase conservation easements from, or enter into restoration cost-share agreements with, eligible landowners who voluntarily cooperate in the restoration and protection of wetlands and associated lands. To participate in WRP, a landowner will agree to the implementation of a Wetlands Reserve Plan of Operations (WRPO), the effect of which is to restore, protect, enhance, maintain, and manage the hydrologic conditions of inundation or saturation of the soil, native vegetation, and natural topography of eligible lands. The Department may provide cost-share assistance for the activities that promote the restoration, protection, enhancement, maintenance, and management of wetland functions and values. Specific restoration, protection, enhancement, maintenance, and management actions may be undertaken by the landowner or other Department designee.

(b) *Acreage limitations.* (1) Except for areas devoted to windbreaks or shelterbelts after November 28, 1990, no more than 25 percent of the total cropland in any county, as determined by the Farm Service Agency, may be enrolled in the CRP and the WRP, and no more than 10 percent of the total cropland in the county may be subject to an easement acquired under the CRP and the WRP.

(2) The Department and the Farm Service Agency shall concur before a waiver of either the 25 percent limit or the 10 percent limit of this subsection can be approved for an easement proposed for enrollment in the WRP. Such a waiver will only be approved if it will not adversely affect the local economy, and operators in the county are having difficulties complying with the conservation plans implemented under 16 U.S.C. 3812.

(c) *Landowner eligibility.* The Department may determine that a person is not eligible to participate in the WRP or receive any WRP payment because the person did not comply with the provisions of 7 CFR part 12. To be eligible to enroll an easement in the WRP, a person must:
